

EC2 Dashboard

The screenshot displays the AWS Management Console interface. At the top, there's a navigation bar with the AWS logo, search bar, and user information (Nikita, ID: 058114477508). The left sidebar shows the 'EC2' service selected, with options like Dashboard, Global View, Events, Instances, Instance Types, Launch Templates, Spot Requests, Savings Plans, Reserved Instances, Dedicated Hosts, Capacity Reservations, Capacity Manager, Images, and AMIs. The main content area is titled 'Resources' and lists various Amazon EC2 resources in the Asia Pacific (Sydney) Region. A table shows counts for each resource type. To the right, there are three summary cards: 'EC2 cost' showing date range, credits remaining (\$100 USD), and days remaining (178); 'Service health' with a link to the AWS Health Dashboard; and 'Account attributes' with a link to Default VPC.
